永嘉东瑞机械有限公司
YONGJIA DORY MACHINERY CO., LTD

企业简介

永嘉东瑞机械有限公司位于中国泵阀之乡——浙江温州，是国内生产阀门检测设备的创始者之一，拥有三十多年的专业研制与制造液压机械的丰富经验，致力于生产各种阀门检测设备，阀门试验台，阀门测试机，阀门研磨机，球阀球体研磨机，流量计耐压测试台、阀门寿命试验台和水泵试验台等系列液压产品。

东瑞(DORY)YFJ系列阀门液压测试台集液压、机械、电器及介质液体贮存循环组合于一体,适用于各种闸阀,截止阀,止回阀,球阀,蝶阀,安全阀,旋塞阀,调节阀及其他管道阀门的压力密封试验,致力于不断技术创新和研发。

东瑞(DORY)阀门试验台可由用户选定配置电脑测试数据管理系统(传感器,PLC,液晶触摸屏和打印机),阀门寿命/扭矩测试系统,全自动测试系统,泄露量自动采集系统,远程监控系统和远程控制系统,具有结构合理,功能完善,性能稳定,自动化程度高等优点,是目前国内外较先进的阀门检测设备。

东瑞机械(DORY)是中石油,中石化,中海油,大庆油田,抚顺石化,中原石油,胜利油田等单位的重点供货商;其独特的设计,稳定的性能倍受专家、用户的赞誉和肯定,并将业务拓展到美国,意大利,希腊,西班牙,沙特,新加坡,阿曼,印尼,马来西亚,巴西,阿根廷等全世界三十多个国家和地区。广泛应用于各类阀门制造商、石油石化、天然气、给排水工程,电站电厂、阀门维修站等行业进行高、中、低压阀门的强度、密封性能测试。

东瑞机械(DORY)始终坚持以《一直在努力、一直在创新》的宗旨,注重产品质量,强化质量管理,严格按照ISO9001质量管理体系进行管路生产,产品完全符合GB/T13927-2008《工业阀门压力试验》、GB/T26480-2011《阀门的检验和试验》和AP598美标等有关标准。并通过不断开拓,努力创新,塑造卓越的产品,优化服务体系,为用户提供全套阀门检测解决方案。

择购东瑞液压机械产品,此唯我公司同心期盼!竭诚欢迎各界用户朋友来电、来函、莅临洽谈,真诚希望与国内外新老客户携手合作,共创新的辉煌!

DORY

VALVE TESTING

COMPANY PROFILE

Dory Machinery is a leading valve test bench manufacturer, located in Wenzhou, Zhejiang, the hometown of pumps and valves in China. It is one of the founders of industrial valve testing equipments in China, with 30 years of professional development and manufacturing of hydraulic machinery. Dory is dedicated in manufacturing valve testing equipment, valve test benches, valve testers, valve grinding machines, ball valve ball grinding machines, flow meter pressure test benches, valve lifetime test benches, and water pump test benches etc.

Dory Machinery YFJ series valve hydraulic test bench integrates hydraulic, mechanical, electrical system and liquid storage circulation system. It is suitable for testing various kinds of gate valves, globe valves, check valves, ball valves, butterfly valves, safety valves, plug valves and other pipeline valves.

DORY Machinery is the main supplier of PetroChina, Sinopec, CNOOC, Daqing Oilfield, Fushun Petrochemical, Zhongyuan Petroleum, Shengli Oilfield, etc. Its unique design and stable performance are highly praised and affirmed by experts and users. Dory has expanded its business to more than 30 countries and regions in the world, including the United States, Italy, Greece, Spain, France, Saudi Arabia, Singapore, Oman, Indonesia, Malaysia, Brazil, and Argentina. It is widely used in various valve manufacturers, chemical, petroleum and petrochemical, natural gas, oil refinery, Energy, Pulp and paper, water supply and drainage engineering, power plants, valve maintenance and other industries to test the strength and sealing performance of high, medium and low pressure valves.

Research, development and continuous technological advances ensure Dory stays in the forefront of the industry. Our highest priorities are to secure the production, products quality and after sale services. We sincerely welcome customers and friends from worldwide to visit Dory, We look forward to cooperate with you to create a brilliant future!

阀门试验台与东瑞

回顾上世纪九十年代之前，在我国的阀门制造企业和阀门使用单位对阀门壳体和密封测试一般采取：小口径阀门采用螺杆手轮人工用力压紧阀门工件，再用杠杆式活塞水泵同样人工用力往复运动向阀门腔内注水加压。大口径阀门采用密封盲板用螺栓压紧阀门两端法兰，再用四轮活塞往复式电动水泵向阀门腔内注水加压。这样阀门测试方式费时又费力，测试效率很低。

兹一九八九年九月我父亲胡理瑛由当时永嘉县二轻工业局任命，从永嘉县高中压阀门厂厂长岗位调任永嘉县液压站厂厂长岗位(同年我也随父亲从永嘉县高中压阀门厂调入永嘉县液压站厂，并从事液压技术工作)。至我父亲调任液压站厂厂长后，他利用液压站厂现有的液压电器技术，结合他自身在永嘉县雨伞厂，永嘉县工艺美术厂，永嘉县机械配件二厂和永嘉县高中压阀门厂的实际经验，根据阀门行业对阀门测试的要求和需要。他和液压站厂的技术人员经过不懈努力共同研发，终于在一九九零年开发生产YFS-200型、YFS-500型系列阀门试验台，并销往全国各地得到了阀门制造和使用单位的好评。

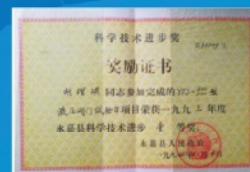

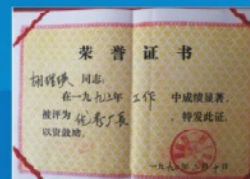

我父亲同时荣获一九九二年二月永嘉县二轻工业局颁发优秀厂长，一九九三年六月中共永嘉县委颁发优秀共产党员，一九九三年八月列入《中国实用科技成果大辞典》编辑部、西南交通大学出版社撰写了宝贵的科技成果文稿系《辞典》作者证书。一九九四年八月温州市人民政府颁发的温州市科技进步贰等奖。一九九四年十二月，永嘉县人民政府颁发的永嘉县科学技术进步壹等奖、等奖状和奖杯。但由于我国改革开放深入和温州地区私有企业蓬勃发展，作为国有性质的液压站厂再也不适应自由经济的发展，和其它国有企业一样最终于一九九七年步向破产倒闭。后在一九九九年我父亲检查出得了肺癌中后期，于二零零零年不幸去世。那时我在液压站厂倒闭之前离开了单位，到私有企业继续从事我喜欢的阀门试验台行业工作。

在长达十几年工作时间里我帮助扶植了好几家阀门试验台企业，同时在工作实践中提升了自己技术能力和管理水平，才有了继承父亲遗愿的愿望。

现公司规模和技术实力处于同行前列，为生产阀门试验台生产规模化打下坚实基础。公司起步虽晚但发展迅速，逆势而上，走科技创新之路，致力于自主研发各类阀门试验台与阀门研磨机。

东瑞公司产品在国内销售的同时已将业务扩展到美国、意大利、希腊、西班牙、土耳其，以色列，沙特、阿曼、南非，尼日利亚，印度，巴基斯坦，俄罗斯，韩国，印尼、马来西亚、泰国，新加坡，巴西、阿根廷，智利等三十个国家和地区，取得良好的成绩。

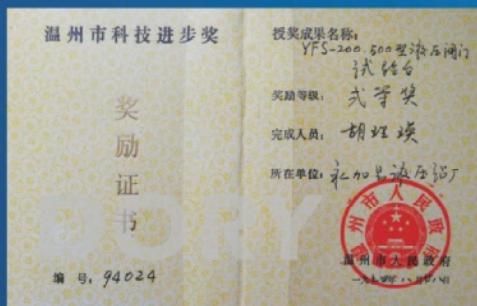

我坚信永嘉东瑞机械有限公司在<一直在努力一直在创新>的发展信念下在阀门试验测试和阀门研磨行业再创新的业绩。

1986
-
1995

1994年胡理瑛成功研发TFS-200型。
YFS-500型系列阀门试验台获得国家科学技术进步奖

In the year 1994, Mr Liying Hu (Father of Yinhe Hu) designed and developed the YFS-200 Model Valve Test Bench, Won the China National Science & Technology Progress Award.

2009

2009年2月25日胡银河在永嘉县上塘镇桥汇路
创建了永嘉东瑞液压机械制造有限公司

Feb 25th 2009, Yinhe Hu established the Yongjia Dory Hydraulic Machinery Manufacture Co.,Ltd Located at Qiaohui Road, Shangtang, Yongjia.

DORY Valve Test Bench Retrospect

The history of the valve test bench industry dates back to 1990S, at that time, in China all valve manufacturers and valve users generally performed the valve shell test and seal test by means of bolt handwheel manual type clamping for the smaller sizes valves, and then lever type piston pump manually back and force movements filling the water into the valve body, while for the bigger sizes valve by means of blind flanges bolted to clamp the valve bilateral flanges, then with four wheels piston motor drive water pump filling the valve body and pressurizing, this way of valve testing was waste of time and manpower, lower efficiency.

In September 1989, my father Liying Hu, nominated by Yongjia second light industry bureau, appointed from Yongjia high & middle pressure valve factory manage director position to Yongjia hydraulic station factory manage director (at the same year I was also transferred from the same factory to Yongjia Hydraulic station factory, specialized in hydraulic technology). Till my father as the manger director of Yongjia Hydraulic Station factory, he adopted the hydraulic station current hydraulic and electrical technology, combined his experiences in Yongjia umbrella factory, Yongjia arts & crafts factory, Yongjia mechanical spare parts second factory and Yongjia high & middle pressure valve factory, according to the valve industry 's demand of the valve testing, after continuously research and creative developing with other staff, eventually in 1990 they developed and manufactured the valve test bench model YFS-200 and YFS-500 and wined the good comments from the customers throughout the country. He was the first in the hydraulic industry who has established the mass production of the equipments for the pressure testing of pipeline valves.

My father was awarded certificates of "Excellent Factory Manger director" by Yongjia Second light industry Bureau in February of 1992, "outstanding communist party member certificate" by Yongjia county Party committee in June 1993, and author's certificate issued by China practical achievement of science and technology dictionary edit department and China Southwest Jiaotong University press in August 1993, "Wenzhou science and technology progress certificate by Wenzhou Municipal People's Government in August 1994, "Yongjia science and technology progress first prize certificate" by Yongjia Municipal People's Government in December 1994, etc. (Refer to attached photo)

While because of the China Reforming and opening policy and Wenzhou area private enterprise booming developing, the government state owned Yongjia hydraulic station factory was not adapt to the development of free market economy, same as the other state owned factories, finally bankrupted in 1997. Later in 1999 my father got the lung cancer middle and last stage and passed away in 2000. At that time, I left the hydraulic station factory and worked in the private company for the valve test bench production, the one I have been devoted to.

Now the company scale and technical strength are among the best in the whole valve test bench industry, laid the solid foundation of the valve test bench mass production, although the company started not early but by rapid developing, take the road of science technology innovation, dedicated in designing developing various kinds of valve test bench and valve grinding machine.

Dory equipments has been sold to not only domestic market, but also international markets, like USA, Italy, Greece, Spain, Turkey, Israel, Saudi Arabia, Oman, South Africa, Nigeria, India, Pakistan, Russia, Korea, Indonesia, Malaysia, Thailand, Singapore, Brazil, Argentina, Chile etc more than thirty countries and regions, and wined lots of reputations by assurance quality and superior services.

I believe that Yongjia dory machinery Co., Ltd under the faith of "Keep Hard Working, Keep Creative working" will have better achievements in the valve test bench and grinding machine industry.

2013

公司快速发展，2013年9月在永嘉县东城街道购置新厂房

With rapid development, In September 2013 Dory bought the new plant located in Dongcheng sub-district, Yongjia.

2014

2014年2月乔迁至新厂房，公司升级为永嘉东瑞机械有限公司

In February 2014, Dory moved to the new plant and upgraded to YONGJIA DORY MACHINERY COM., LTD

2015
